Introduction

Your time is important to me!

Anyone who relies on experience, i.e. years of practical routine, and would like to buy it globally as cheaply as possible does not look for me. That suits me fine, because personally, I prefer an environment with fairly paid, broadly trained, creative knowledge workers.

Not failing in at least 90% of the attempts means not aiming high enough!

In addition to the usual tables, this document also contains links to my own websites. These serve as work samples and contain blog pages and project descriptions around the topic of informatics. There you will find animations, tutorials, and links to the source code.

Contact and Internet

Name	Roland Benz
Address	Felsberg 2, 8052 Zurich / Switzerland
Telephone	+41 (0)79 271 90 34
Email	rb-job@gmx.ch
Source-code	github.com/qoolixiloop
Web-sites	qoolixiloop.wordpress.com

2010 CAIA	Financial Analyst	1st exam passed *
2011 CFA	Financial Analyst	1st exam passed **
2018 UZH	Informatics	no formal diploma *

* 2nd exam not taken
** 2nd exam not passed
*** 171 credits; more information on my website

Jobs

See work certificates for more details. Summaries available at:
qoolixiloop.wordpress.com/about-me/#jobs

1985	**…**	**1994**	1995	…	2005	2006	…	2013	2014	…	2019

Commercial apprenticeship and military service as well as jobs in shipping and accounting. **(Maag, NCR, AT&T)**.

1985	…	1994	**1995**	**…**	**2005**	2006	…	2013	2014	…	2019

Highschool and study at the ETH. Study projects, secondary jobs in event marketing, social work and cleaning **(Emergency Shelter, Spool, Milo cleaning)**. Mandatory internships **(Sulzer, Alstom Power)** and voluntary internships during and shortly after graduation **(Esec, Innopark, Prose)**. The last five jobs during this period were all in the field of mechanical engineering and had a significant programming, CAD or calculation share with software such as Matlab or Inventor.

1985	…	1994	1995	…	2005	**2006**	**…**	**2013**	2014	…	2019

Preparation for international financial examinations and temporary jobs in the financial-, social- or agricultural sectors **(Zurich Insurance, UBS, ETH, Feinschliff, Syngenta)**. At Zurich Insurance, I worked with portfolio data for a profitability analysis. At UBS, I had a project in Global Risk Management as a programmer. At the ETH, I was in the Department of Safety, Health, Environment. At the social firm Feinschliff, I worked part-time in bookkeeping. At Syngenta, I mainly worked as a programmer in Project- and Profolio Management Excellence. Most jobs had a very large amount of Excel and programming with software like SAS and VBA, and filter tools like Pivot tables and SQL.

1985	…	1994	1995	…	2005	2006	…	2013	**2014**	**…**	**2019**

Study at the University of Zurich. Study projects, building my websites **(GitHub, WordPress)** and social projects.
